On November 24, 2004 the British Columbia Utilities Commission approved a final rate increase of 4.85%. This new rate is being charged effective December 3, 2004 and is reflected on this bill. The difference between this final rate and the interim rate of 7.23%, which has been charged since April 1, 2004, will appear as a credit interest on your next bill after mid-January 2005.

Even with this increase, Axos's rates continue to be among the lowest in North America. For more information refer to the bill insert or visit the Axos web site, www.axostech.com.
